Background & APCD Notes

Errislannan Cliffs is a fictional course located on the west coast of Ireland in County Galway. The Course is based upon the plot of land available in the Mike Jones expansion pack. (Someone had to create a course.) Errislannan Cliffs is a new links course constructed in the late 1990's that plays through the dunes along the Atlantic Ocean. This project started as a few hole test to try some of the methods found in the MJ expansion pack. I had fun during the initial construction and decided to create a full course. Many items are not included on the course such as crowds, tournament objects, and misc. 2D course objects. I also decided not to go through a lengthy beta test. The primary object was to create a course in short time that I could apply some new techniques to and that everyone would have fun playing. I hope I have achieved these goals.

Acknowledgements

Fairway by Art Patcheck, Rough and Deep Grass by Mike Jones, Bunker Sod by Andrew Jones, Bunker Sand unknown (Sorry) . All textures have been modified from the original source as previously noted. 2D grasses and steel weed help by Jon Weinrieb. Coastal cliff terrain by Mike Jones. Input during alpha testing by Martin von der Hoeden and Todd Ratcliffe. Thanks to everyone for their help.

Hope you enjoy your round at Errislann Cliffs
