Anhinga

Brown Pelican

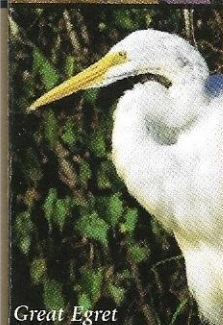

Snowy Egret

Red Mangrove

Green Iguana

Great Egret

Great Blue Heron

The golf course on Key Biscayne was originally designed by Devlin/Von Hagge in 1972. It is one of the top public golf courses in the world and allows players an opportunity to experience nature on the only subtropical lagoon in North America. Pictured around the scorecard are some of the wildlife that inhabit this island in Biscayne Bay.

U.S.G.A. rules govern play. All hazards are lateral (drop the ball where it goes into the hazard at two club lengths,

one stroke penalty). Sprinkler heads are marked to center of green. Cross, but do not drive down fairway with golf carts (90° rule). Keep carts on paths around greens and tees. Repaired ball marks improve the putting surface, PLEASE HELP. Do not replace divots, instead, fill with sand.

Play should be completed in no more than 4 hours and 20 minutes.

Special thanks to Pete Fontaine and Robin Hill for the cover photography.
